

Economy Compressor

Made in the "USA"

Hypres Equipments' economy compressors are comprised with a North American pump. The pump is capable of 9 to 12 CFM. Three and four stage designs for low vibration. Pressures rated at 5000 to 6000 psi. The pumps have a 56 decibel rating for quiet operation. Heavy duty crank shafts, gear type oil pump, & spin on oil filter provide longer pump life. The standard system is equipped with a magnetic starter and overload protector with 24 VAC Siemens controller.

Standard Equipment:

- Hour meter
- Single phase or three phase electric
- Replaceable cartridge type purification system providing up to approx. 43,000 SCF of Grade 'E' air between cartridge changes
- Automatic condensation drain system eliminating condensate buildup every 15 mins.
- Relief valves on each stage of compression
- Intercoolers/Aftercoolers
- Six foot fill hose with SS CGA hand tight adapter and bleed valve

Options:

- Gas powered

Dimensions: 48"W x 25"D x 35"H
